

*“The following list of wines has been chosen and organized with great care for your maximum enjoyment. The wines were individually chosen for their excellence in quality and value. We hope that you enjoy looking through this list as much as we enjoyed preparing it for you. If you have any comments, questions, or suggestions we are at your disposal.”*

Alain Canuel  
Operations Director

### ***Wine Flight***

We offer flights of wines for you to compare and contrast, to try something new, different and without intimidation. With our wine flights, you receive 2<sup>1/2</sup> ounces of three different wines, along with a quick explanation of each so that you can enjoy the distinct nuances of the wines side by side.

### ***Enomatic System***

Enomatic systems dispense wine directly from the bottle using revolutionary inert gas preservation. The flavours and characteristics of the wine remain intact for more than three weeks, as if the bottle had just been opened.

### ***Perlage System***

A 300-year old problem is finally solved. Champagne can now be enjoyed any time, in any amount with no waste. Under development for 15 years, the Perlage System is a revolutionary new patented technology for preserving opened bottles of sparkling wine. Properly used, open bottles of Champagne will keep for weeks or even months with no change in flavor profile or carbonation levels.

## Glass Selection
